**DIRECTIONS:** Squeaky the penguin spelled his name all over the grid below in one long squiggly line. Start at the letter S with the circle and spell his name 8 times by filling in the boxes with the letters of his name. His name does not follow straight lines and must be spelled exactly each time. When you get to the last letter of his name, continue with the first letter again. The first name and the first letter of the second name have been done for you. When you get to the Y in the grey square with the circle, you have found all the names.
